## MICHAEL SHELTON'S ADVANCED CLINICS

# FEEL THE PUTT

PuttingZone.com

**If you want to be a Better Golfer, become a Better Putter.  
Don't Miss this Opportunity.**

**Mike Shelton's** PuttingZone™ Clinics offer serious golfers the best putting instruction in the history of the game. The PuttingZone™ Clinics are packed with revolutionary and effective techniques based on nearly 20 years of extensive and exhaustive research. This amazing body of work has been distilled into a simple-to-understand and common sense approach which Mike teaches as the **'Optimal Putting: Brain Science, Instincts & The Four Skills of Putting'** that is the most advanced & comprehensive putting instruction in golf, covering distance control, stroke, aiming, and reading putts...better than anyone in the game. Seasoned golfers, both amateurs & pros alike, are stunned by the depth of knowledge and effectiveness of this new, unique approach to mastering the 'game within a game' and commonly remark:

*"Excellent. I have never heard any of this before, and it's the best I've ever heard for putting."*

Throughout 2013, PuttingZone™ is organizing tours to European, South African, Canadian and U.S. cities, offering full day and half day clinics to golf players and professionals seriously interested in improving their game. Also available in conjunction with this tour, by advanced arrangement, are opportunities for one-to-one training sessions and corporate events. Check the calendar at the PuttingZoneClinics.com website for the most recent tour schedule.

Putting is over 40% of the game and improved putting pays larger and quicker dividends in lowering scoring than any other part of golf instruction. In general, swing teachers are NOT putting instructors, and even among recognized experts for putting, the instruction is commonly limited to only stroke technique. The PuttingZone™ instruction is filled with drills for reading putts, aiming the putter and setup, controlling distance, and stroking the ball straight with great accuracy and consistency. The approach is comprehensive, yet simple.

There is no other putting instruction in the world that even comes close.

**Contact the PuttingZone™ today, and transform your game.**
