So we come to the penultimate round of the year full of expectations of a couple of major shocks and would this be the case. Also would every team be full of its own players or would it remain as the footballing parlance says "on loan". Once again this month's event was coupled with the Birthday of Geoff [TeeSet] who was overheard telling the front desk that he was only 60 this didn't work. Again food and beer was provided together with the band from Bandung who believed that Geoff was so hard of hearing that any sound less than volume 10 [out of ten] was not going to be heardamazing to watch the two lads who were on the control panel. They were asked to lower the volume - which they did but only to find their local

disease of wandering fingers gravitated to the sound system and automatically inched up the volume again towards the 10 mark!! Still folks gradually got use to it or found alternative places to chat. For some folks this was the day to talk about one JIL player who had been the centre of a boxing event the night before. Scheide of Sentul had actually trimmed down [now guys and gals this could be something for any of you who wish to shed a kg or two] within the year some 39kgs ----- YES ----- some 39 kgs. This was achieved through a strict diet [sound almost sacrificial as very little carbs] and a planned workout daily. In fact the boxing regime training is both cruelling and successful in shedding the unwanted kgs and also bringing

into check the other things we all worry about. For the record Scheide lost the bout but stayed the distance and only succumbed to a points decision ---- well done Scheide.

This month we have to give mention to 'Nearly President of Everything' as he was found floundering when he arrived and looked into his case to find he had left scorecards behind but in fairness he managed to get these delivered to all groups about half way around. Not sure what was the ploy as he definitely was having fun with Brenda who shook off her shyness later in the evening and was seen singing song after song with the band ---- 'way to go kiddo'

Interesting question about one ball hitting another ball when both balls are not on the green. Is it 'rub of the green' or is it governed by a specific ruling. This happened on the New Course Hole #16 and the hit ball drifted nicely behind the tree before the water so that there was no shot. The player started to move the ball back to where it had been originally but the opponent said (after consulting Edwin) he had to play from where it had been moved to. Who was correct? Well Rule 18.5 states that "if a ball in play and at rest is moved by another ball in motion after a stroke, the moved ball must be replaced to its original spot".

However, in matches it is always appropriate to speak with your playing partners and clear the situation prior to moving the ball or taking other action which may be questionable.

Noises around the 'traps'

It is great to listen in to various conversations before / during / after the monthly matches. Usually before is about the reason for looking so rough and generally reflects over-indulgence the night before. This month there were several folks who probably went straight to the course rather than attempt to get any 'shut-eye' definitely some of the faces had a totally drawn appearance but give credit to the hardy golfers they all made it round the course [thank goodness for buggies] During the round it generally revolves around the music selection and/ or the loudness of the music. Although this month there were moans about handicaps and external coaching of players [new one]. Going back to handicaps they really are like Referendums in that the moans are never-ending until one gets the result you want and then this is followed by deathly silence and never agreement for another Referendum ----- in the case of handicaps it is always that someone is doing the Sombrero calculation and they should be playing off a lower handicap as we never hear that people should actually be playing off an higher handicap !!! In any case the 2016 Team Captains and Committee have a couple of issues to try and find some solution.

COMPETITION 2015

NOTE: the October match is scheduled for

11 October

And November closing event is 22 November.

One team captain did ask why the sudden change for October since they thought it was still 18 October.

However, the editor has been back through past Newsletters and in June the date was changed to 11 October and there was a very clear note stating "October is switched from 18 Oct to 11 Oct". All newsletters since then have clearly shown the forward schedule as 11 October so we do believe that adequate advance notice had been given to the Team Captains by the JIL Committee.

MATCH REPORTS - SEPTEMBER

Better start with the table leaders as too many of them bombard anyone who will listen about the scores / points or have they won the league yet.

MADDOGS 6 - TEESET 4

Mad Dogs continued with the belief that female dominance was the best way forward and so Boom Boom Iris and Yati were confronted by a couple of youngsters in the Hack and young Barbora. The Hack has been playing some reasonable golf recently and been supplementing his income by raiding the TeeSet coffers as he collects prize after prize. He brought his 'B' game but sadly Iris brought her 'C' game and although starting with a first hole win she then got into negative territory that could not be shaken off and she capitulated 2:1. Meanwhile Yati played handicap golf highlighted by a natural birdie on the stroke index #1 hole and fairly easily took care of the rising female golfer Barbora 4:3. In the pairs Arvid / Michael played Chris / Daniel but the Mad Dog pairing could get over a rough ending to the front nine where they lost three holes on the trot to go three down. Although there was some claw back the TeeSetters eased through 2:1. Must say it was good to see that Arvid managed to convert his NTP shot with a birdie putt. Geoff / Nas had the pleasure of playing with Birthday Boy Geoff and Mike. The Mad Dogs established a comfortable 4 hole lead at the turn and whilst this was slowly eaten away the holes ran out and they ran out

2:1 winners. Think that Birthday Boy had been burning the candle as he could only manage one par in the entire round and strangely that was on stroke index #1 hole. The final pairing was Norman / Keith up against Anlo : Pieter with the Mad Dogs pair deciding to get the match over early and soaring to a strong lead which ended at 6:5 victory salute. In fact Anlo/Pieter only managed to win one hole and this despite Anlo hitting an eagle on the first hole.

POCKSIA 4 - SENTULSWINGERS 6

The table poppers were determined to shrug off the monkey that only allowed them to collect a maximum of 4 points in any month. A returning leftie player from Singapore strengthened the singles and Lucas thought he could easily battle the course but he ended up needing his handicap twice !! This suited Al who managed to win the final two holes and overturn a deficit into a One up win. In the other match John played Kris and a slight lead by John was pulled back until John suddenly turn on the tap and Kris lost the plot in the closing holes of the second nine such that John ran out 3:2. Jeremy/Paul and Beamer Bob/Andrew should have been a close match, especially as Beamer had had a fantastically lubricated and late Saturday following the normally liquid Saturday golf up the hill. To start with this prediction looked pretty accurate but then Beamer found 'hair of the Dog' and stormed into contention and was the sides low scorer on 8 of the second nine holes. This turn around enabled the SS boys to win 4:3.

Bruce/ Iven were playing Howard/Ari and lack of golf by Ari in recent month's definitely showed but when she chipped in it was usually for a win. So the SS pairing commanded a 5 hole lead only to see that reduced back to one before a late couple of pars got them to be the 3:1 winners. So the final pairing of Dave/Greg had the mantle on their shoulders and the team wondered if they could lift the monkey and get extra points to raise above the 4 point hurdle. In an evenly handicap match against Sid/Glen SS found themselves up and then down and then level and finally up 3:2. So at long last SS had set a new standard for their team.

SANDBAGGERS 4 - CLOGGIES 6

This of course is the family feud between Grumpy and HotWax, with both keeping coy about what are the team strategies ---- no pillow talk before the JIL !!! Grumpy had a late withdrawal and so was left with only 7 players and, as we learn below TeeSet had run out of spare players, so in a magnanimous show of captaincy he dropped himself from singles to play against two. This meant that Oliver and Tim were up against Disney Dave / Just Lucky Simon. Oliver claims his mind was not on the game but on imminent fatherhood whilst Disney just said it was his superior play that earned him 6:4 victory. The other match was a real ding-dong fight but we reckon Tim had done some sledging about the fact that Japan had beaten S Africa at rugby and then questioning parentage of Just Lucky. This was to prove a continuing

MATCH REPORTS

Highest recorded score honestly entered by Pieter (24) with 11 although Nyoto (23) tried with a couple of 10's

Natural eagles [just shows how much run there is on the course] recorded by Anlo (12) and Chris (22)

Birdie player of the month goes to Chris (MadDogs) / Tim (Sandbaggers) with a couple each

topic of conversation when Just Lucky brought along some of his family for the post-golf event!! The final par 3 was where Tim thought he had to produce a miracle as he was one down but Just Lucky found his beach holiday to his liking and double bogeyed to hand the draw to Tim. Wobbly had a new partner in Max who claimed the maximum and this proved to be a deciding factor as they were up against the Golden Boys of Schumaker and Colonial Hans/Pradeep. As they turned into the second nine Pradeep decided to show everyone what golf was about and played the next nine holes 6 under his handicap but Sandbaggers were not impressed and only dropped one hole. So with a fistful of holes left Sandbaggers were two down and then Max took some vitamins and rattled off three wins on the trot. This left the final hole as the decider and as everyone scored a net bogey on the par three it left Sandbaggers one up --- a turn up for this season. Rae/Dale were up against Bloss/Maltman and this turned into an epic struggle. After a cautious exchange of blows Sandbaggers

went two up then two down before Dale started to use his shots and bring it back to all square with two holes left. The Par 3 was halved with net pars and so to the final hole where Maltman smote the ball a 'country mile' or should we actually say a 'mile into the country'. With Rae and Bloss on the green in regulation both putted close but not in and so the match ended all square. Grumpy took on BB/Robotic Rio and after a valiant early effort Grumpy slowly slid under the table and was buried 6:4 [it is difficult for one to play two and there are very few instances where the single player comes out on top].

TIN CUPS 4 - JLI 6

JLI were without their Captain and their [we think he exists] Vice-Captain and so Tom had to try and get some troops together. At one stage he was 4 players short but with grace Bags permitted JLI to field four players from TeeSet [this of course can make a tremendous difference to the result and the year ending standings. So technically this became a JLI/TeeSet team. Bill was up

against Jiro and the match started and continued one way as Bill ran out with the 'dog license' 7:6 victory. Bags was still chomping about the joint team as he settled in against Chris but when Chris thumped an eagle putt into the 10th it lead to a straight 6 hole JLI run that never was going to be caught and ended at 4:3 JLI victory. Robert / Sebastian played Anna / Frank and it looks as if the TinCup pairing were not on song as there were few scores recorded against their names. Whilst not a run away the JLI pair kept their lead growing and ended up 3:1 victors. Dani/Nyoto and Tom/Oliver had a fairly high scoring match and many holes were won with bogeys. A look at the scorecard is most confusing but it was signed off as a win to Tin Cups 3:2. Tin Cups were one player short and like Sandbaggers they were too late to get someone from one of the other groups and so our "45 hole" man Bill was up against Ian and Jaco. This was a real unfair fight and "45 Hole" comforted himself with a full cool box as he has found himself on the end of a 'dog license' defeat.

NOVEMBER EVENT

We have been asked about the format of the end of season event and based on the success and enjoyment last year the same format will be used. This is based on a team of 4 players and stable scores are used as follows:-

- Par 3 holes = all four stableford scores are recorded
- Par 4 holes = the best three stableford scores are recorded
- Par 5 holes = the best two stableford scores are recorded

Don't worry the scorecards are designed to make it easy to enter the scores and the Committee will be checking cards to ensure stableford scoring is correct.

It would be fantastic to get an idea of how many players from each JIL side will be joining. As usual we will be putting on a good spread of food and prizes will be awarded. Your support would be greatly appreciated

Most Valuable Player

There are several players from many teams in contention for this prize and so next month is going to be the decider for this award

SKILL HITS

Changing things up the long drive and nearest-the-pin were moved from their comfort holes to a couple of new venues.

With the long downhill hole #15 being a challenge and as the scribe came through with only a couple of groups remaining, the ticket was empty [no-one had managed to stay on the green !!]. From that point on it seems that each

of the following groups managed to creep nearer the hole until finally Arvid [MadDogs] got to 1.8mts to claim the prize. He nearly lost it as he decided he had an hot date later that evening and was showering when time for announcing the winners arrived. Only as Yanti rushed forwards and claimed to be his hot date did we allow he to receive it through her!!

Long drive was interesting as BoomBoom Iris [MadDogs] managed to manipulate her 7 iron

some 158mts up the hill on hole #14. Anyway as she stood proudly over this commanding and awe-inspiring shot she took out her telescope and scanned the horizon to finally locate the men's long drive of Oliver [Sandbaggers] which was only 60mts short of the green at 264mts. He also nearly missed the award as he was off having a shower or massage [depends on who you speak with as to which is correct] but flushed he just made it back in time.
