Summary

- 2019 followed the pattern of 2018 with the economic environment and changing conditions for our core membership group in Jakarta resulting in the turnover of members. However, thanks to our members who encouraged people to join and our on-line presence, we attracted a strong flow of new arrivals and maintained the overall number of players in line with the last couple of years.
- Tee Set's contribution to the golfing economy in Jakarta was again over Rp1.5B in green fees and countless more when F&B spending is added in.
- Although we included more top courses to our schedule, careful negotiation kept the average price per round comparable to prior years.
- Tee Set maintained its tradition of being a social society for all levels of play although the Treasurer was surprised by a reduction in fines whilst we also celebrated lots of eagles and birdies.
- Great support and member involvement at the major events, our Championship and Tee Set Birthday, with the Championship attracting a record turnout of 107 players

Progress and 2019 Objectives

Tee Set reaffirms its aims of building upon the lessons of previous years

Key Observations & Priorities	Progress in 2019	Objectives for 2020
Set out the calendar of courses each year and seek to optimize the mix of courses to attract a strong turnout each week	Calendar published at the outset of the year and changes managed even at short notice due to issues with initially planned courses. Overall feedback on course played was good from the members but we missed some old favourites.	Maintain pricing at more exclusive courses. Look to increase the number of courses visited back to 20. Maintain Monthly Medal at Cengkareng following good reviews and whilst it is available.
Strengthen sponsorship base and look at how to ensure that events are successfully run. Event Leader is key	Overall financially for the year Tee Set secured sufficient sponsorship to successfully hold the 2 key events and be cash break even. New sponsors attracted in the year through the support of the membership base	Look to secure and add new sponsors in the year – overall and per event basis. Appoint early a leader for key events and spread the work-load across a broader leader group.
Manage the communication to members and maintain the web-site as a core resource for members and to recruit new players	Web-site and bi-weekly blogs updated on a timely basis and pages updated as needed.	Continue to focus on maintaining the quality of the existing activities. Look to improve photo record of each event and add additional animation/videos as feasible.
Inter-League has been integrated into the regular Tee Set calendar and merged with our regular weekly events. Look to ensure a good turnout and manage the presentations to recognize the weekly winners appropriately despite the larger groups.	Transition to Riverside following an unacceptable price proposal from JGCC. Overall events ran smoothly but some late finishers amongst the Tee Set players made for a rushed presentation on a couple of occasions.	Look to improve the administration and coordination on the day, not only between the group and Riverside management but also with the teams and Tee Set game. Keep it a fun day too.

Progress and 2020 Objectives

Tee Set reaffirms its aims of building upon the lessons of previous years

Key Observations & Priorities	Progress in 2019	Objectives for 2020
Strengthen the base of members supporting the operations of Tee Set	2018 Committee and key supporting members rolled over for a 3rd year in 2019 so stability in the leadership team. Absorbed handicap processing for other societies and successful world cup with Craig Edwards added to the team supporting the event.	Bring in new support for event coordination roles. Fixture Secretary needed. Look to find potential successor for current President when term expires. Identify ad hoc support for one off activities
Introduce more team formats into the schedule to mix up the formats	World Cup and joint events with DOGS went well and encouraged to find other events but lack of additional support meant these passed by the wayside this year. Battle Royale not held due to lack in interest from Par 5 Bali.	Look to turn a few of the week-ends into other team style events or to mix up formats. Ensure clear communication on scoring!
Request from members about mixing up prizes	Monthly Medal trophies sponsored last year but general preference for Rp was reintroduced	Look to secure a trophy sponsor for ad hoc events
Ensure all Tee Setters enjoy their Sundays	Organization of events and attraction of new members has been improved over the year. Recognition of newcomers and introducing them to the group to ensure they bond and return.	Continue to recognize new members, achievements and participation of members on a personal level. Keep it fun and light and balance emphasis between the golfing and the social nature Tee Set.

Player Statistics

We know you will enjoy these gems of the year (thanks to Web Guy Extraordinaire, Keith)

Tee Set is a “Net Golf Society” a legacy from Former Presidents and one that is protected as a Tee Set fundamental.

Thanks to our active updates of handicaps we are pretty confident that our system is working well and gives everyone a fair chance each week.

No Tee Setters averaged under-handicap this year again and congratulations to President Roger Finnie for being our best net performer at 72.0.

Where are we from?

A look at the nationality mix that is Tee Set.

These numbers were taken from a snapshot of Tee Set Championship registrations a couple of days before the event but they are pretty representative.

20 countries represented which shows Tee Set is truly a diverse family and continues to welcome all to its weekly events.
